**NOTICE OF DETERMINATION OF REVENUE REQUIREMENTS  
(California Code of Regulations Title 23 Section 510 *et seq.*)**

The California Department of Water Resources ("Department" or "DWR") hereby provides notice of its revised determination of revenue requirements for the period January 1, 2012 through and including December 31, 2012. The Department has made this determination of revenue requirements in accordance with California Water Code, Division 27 (the "Act") and California Code of Regulations, Division 23, Chapter 4, Sections 510–517 (the "Regulations").

The Department has determined that its cash basis revenue requirement for 2012 is \$923 million, consisting of \$71 million in Power Charges and \$852 million in Bond Charges.

In reaching its revenue requirements determination, the Department followed procedures consistent with those contained in the Act and the Regulations. The Department has reviewed certain matters relating to its August 4, 2011 Determination, including, but not limited to, operating results of the Electric Power Fund as of September 30, 2011 (the August 4, 2011 Determination incorporated preliminary actual operating results through March 2011); and an updated gas price forecast.

On October 17, 2011, the Department issued its Proposed Revised Determination of Revenue Requirements for 2012. The Department provided interested persons with quantitative results from its Financial Model, subject to applicable non-disclosure requirements. Interested persons were advised to submit comments no later than October 24, 2011. The Department did not receive any comments on the proposed revisions to the 2012 Revenue Requirement and this revised 2012 Determination remains unchanged from the Proposed 2012 Determination of October 17, 2011.

The Department may propose further revisions to its revenue requirements for 2012 given the potential for significant or material changes in the California energy market including changes in forecasted fuel costs, novation of some of its power contracts and many other events that may materially affect the realized or projected financial performance of the power charge or the bond charge accounts. In such event, the Department will inform the Commission of such material changes and will revise its revenue requirements accordingly.

This notice is being provided via electronic mail to those persons who received the original notice by electronic mail and by U.S. Mail to every person who has submitted a request for notice by U.S. Mail. This notice is also posted on the Department's web-site: <http://www.cers.water.ca.gov/>.

DWR will consider any request for reconsideration of the determination of revenue requirements only if the request satisfies the requirements of Section 515 of Title 23 of the California Code of Regulations, which are summarized below. To be considered, requests for reconsideration must be received at either of the following addresses by 5:00 P.M. on November 10, 2011:
